To Search for specific Products (there are multiple ways to do so)

- 1) Go to the Table of Contents and Zoom In and Scroll to find the page the product you are looking for is on. Then type this number in the bottom, center area of the page and it will take you directly to the page
- 2) Search for specific products by using the White "Search" box at the TOP of the page, then go to the bottom, center of the page and type in the page number and it will bring you to that product page. (*Note this might not be the best option because it shows every page that the keywords are located on)
- 3) Click on the "Index" Icon towards the bottom of the page. This will show every page in a thumbnail view and then click into FULL SCREEN VIEW, the images will get larger and then you can click on whatever page you are looking for and it will take you directly to that page

*Note: The catalog is separated into product categories and is color coded with images to make locating and viewing easier.
